COMPANY PROFILE

REFINED  
TECHNOLOGY

POSITIVE  
TRANSFORMATION

## OUR COMMITMENT!

Refined technology, to help you grow your business; we deliver our services professionally, creatively & in a timely fashion. We consistently innovate new technologies, ideas & processes so we could help you make doing business a lot easier. Every step of the way, we are thinking of you.

REFINED  
TECHNOLOGY

POSITIVE  
TRANSFORMATION

## YOUR BUSINESS

What you want is to move your business from a point of lower productivity, to a point of higher productivity. We will stand by you at every step of the way to help you achieve your business goals & objectives.

## OUR TEAM

We have no other objective than to help you move your business forward; giving you the technological edge above your other competitors.

## EXPERIENCE MEETS PROFESSIONALISM

We have a blend of quality, professional and experienced workers. From the point of recruitment, we have a culture of only working with those who have the capability to contribute positively to the businesses of our clients. We believe that if we make your business better, we are making the economy better, thereby making the nation even much better. We have experienced hands in different aspects of technology, you simply tell us how far you want us to go for you, and you simply set the limits.

# TECHNO CONSUL

## Technology Consulting

Let's give you technological ideas and specifications that could catapult your business to the next level. We have innovative ideas that could improve every area of your business, increasing your business profitability, thereby influencing business growth. Our consulting team are professionals with many years of experience in different areas of business and technology. We guarantee a positive transformation in every area of your business.

LOADING....

SOFTWARE  
DEVELOPMENT  
& LICENSING

## Software Development & Licensing

Either you're looking at having a customized software for your business operations or you want an off the shelf product, Our software team are a bunch of "gurus", always willing to help you simplify the planning, development/purchase and integration processes. Let's shoulder the stress and responsibility for your business; you can sit back, concentrating on other critical areas of your business while we deliver your desires and dreams.

## Interactive Web Design

Our completed projects speak for us. We have website designs in different categories and budgets. Let's give your business a befitting design without going outside your planned expenditure. A look at your website from potential clients says a lot about the standard and quality of your organization, we understand this, and we will deliver software that fits right into the company profile.

DATA  
RECOVER

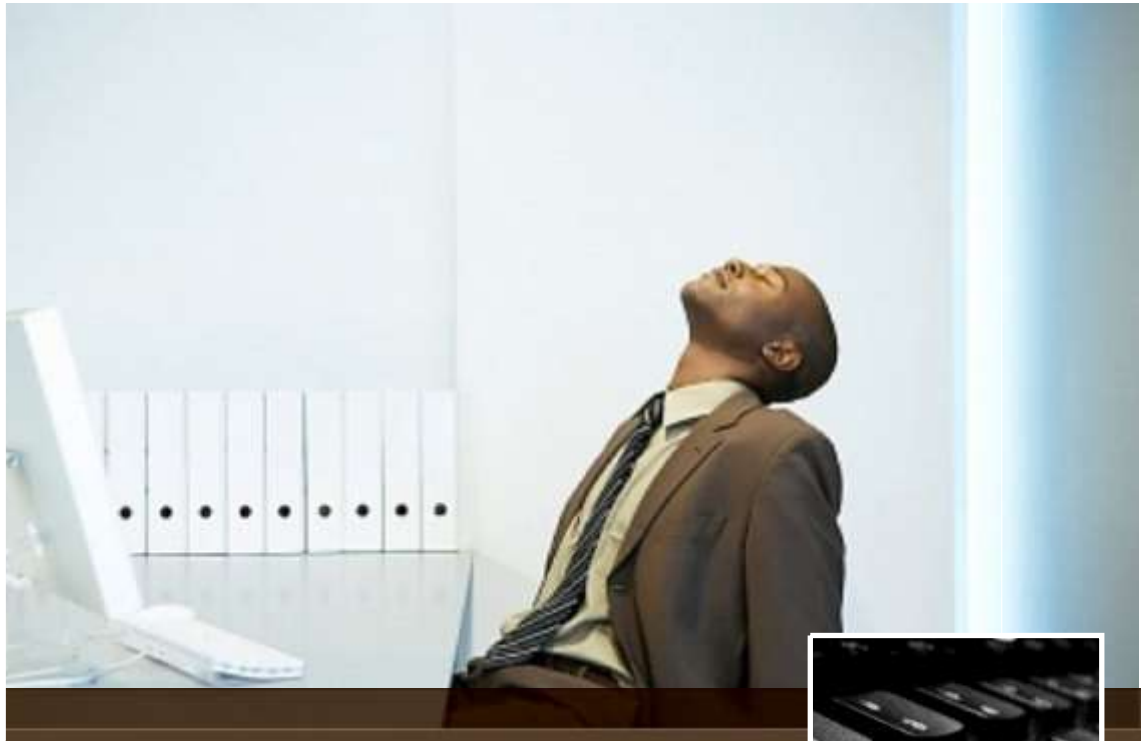

## Data Recovery

Have you lost your data? Computer password? Hard disk crash, flash or memory card format? Our data recovery team could help you bring back what you've lost. Contact us within the first few hours of loss, and our team will ensure that data loss is non-existent or minimal.

# DATABASE DESIGN & MANAGEMENT

## Database Design & Management

Wondering how you could move from paper based systems to digital systems? From an old data management system to a new state of the art database management facility? Our database management team will ensure data consistency, integrity and accuracy during the processes. We guarantee that your business will be faster, more efficient, far better
